### **TRAFFIC SIGNAGE IMPROVEMENT AT MAIN STREET AND I-35**

On Tuesday, May 20, 2014, the City Traffic Control Division will be upgrading the signage on Main Street at the signalized intersection over Interstate 35. Traffic Control Division personnel will remove the single sign for each Main Street approach and install a separate sign for each of the five lanes on each approach. The signs over the lanes for traffic entering northbound or southbound I-35 will include the Interstate 35 shield and direction to further aid motorists. The location of these signs on the traffic signal structure spanning Main Street means that short-duration lane closures will be required in order to allow personnel to place and remove signs as necessary. On May 20<sup>th</sup>, lane closures begin after 9:00 a.m. and should be completed by 12:00 p.m. of the same day. Any questions about the project can be directed to Mr. David Riesland, City Traffic Engineer, at 405-329-0528.
